Request Description

Short Description :

(1). All research, studies, data, published and unpublished articles, analyses, memoranda, or other documents relating to the EPA's consideration, in connection with the land application of biosolids, of a cumulative pollutant loading rate, a pollutant concentration and/or an annual pollutant loading rate for molybdenum in 40 CFR section 503.13, tables 2, 3 and 4, or a proposed amendment or modification of 40 CFR section 503.13 for that purpose. (2). All communications between the EPA and publicly owned treatment works, wastewater management agencies, land appliers, or industry associations, including the City of Los Angeles, Los Angeles County Sanitation Districts, Orange County Sanitation District, the California Association of Sanitation Agencies, Tri-TAC, the Water Environment Research Foundation, the Water Environment Federation, and the National Biosolids Partnership relating to the EPA's consideration, in connection with the land application of biosolids, of a cumulative pollutant loading rate, a pollutant concentration and/or an annual pollutant loading rate for molybdenum in 40 CFR section 503.13, tables 2, 3 and 4, or a proposed amendment or modification of 40 CFR section 503.13 for that purpose. (3). Documents sufficient to identify the current status of the EPA's consideration, in connection with the land application of biosolids, of regulatory limits in 40 CFR section 503 for the presence, concentration, annual or cumulative loading rate, or other regulation of emerging contaminants in land applied biosolids, including perfluorochemicals, PDBEs, antibacterials, and pharmaceuticals.
